

How many people will God Win?

Derived from *Secrets of the Koran*, by Don Richardson, p.240-241

World-wide, Historical mortality:

66% of everyone conceived in the womb failed to live to see the fifth year of life.

If children are innocent, and automatically receive salvation, estimates of the combined total of these children with everyone who has accepted Jesus as God's Son through the ages equals approximately 77% of all people who were ever conceived.

So, by default, God wins 77% of His creation.

Isa.57:1 The righteous perish, and no one ponders it in his heart; devout men are taken away, and no one understands that the righteous are taken away to be spared from evil.
